SAGICO Participating in the International Spinal Osteotomy Meeting in Europe with a Focus on Clinical Validation for Aria™ and Arion™ Interbody Devices

Tampa, FL, USA, February 5, 2018: As part of the US launch of Aria Surefit™ Lumbar Interbody and the first-to-market Arion™ Cervical Expandable interbody, representatives from SAGICO USA and SAGICO EU will be attending the 2018 **International Spinal Osteotomy Meeting at Koç University Hospital**. SAGICO will be meeting with several Key Opinion Leaders (KOLs) in spine and discussing the preliminary data review of clinical research being conducted.

SAGICO anticipates releasing portions of the company's new and ongoing clinical data efforts focusing on Aria™ and Arion™ which were recently cleared by the FDA. James Gibson, CEO of SAGICO USA, explained, "with the recent release of our innovative interbody portfolio we are now focusing on the continuous cycle of clinical validation. With over 4,000 surgical cases completed, we have strong data that we know will differentiate our products in the North American market." He continued, "the key to the introduction of our unique portfolio will be continued clinical surgeon collaboration in both the US and abroad."

The prestigious International Spinal Osteotomy Meeting is an annual event with scientific lectures and data being presented ranging from principles of thoracolumbar and sagittal balance and osteotomies in cervical and upper thoracic spine.

Koç University hospital is part of the Koç Healthcare group among with two other hospitals, American Hospital and MedAmerican Ambulatory Care Surgery Center. The Koç University Health Science Campus houses the university's notable school of medicine.

Faculty members include surgeons from leading teaching facilities in the USA and Europe. The meeting's faculty includes KOLs from Columbia University in New York, UCSF Spine Center in San Francisco, Switzerland, France, Belgium, Italy and the host nation of Turkey.

The multinational meeting is full of excellent lectures from prominent experts, clinical review of new procedures, case discussions, debate sessions, video demonstrations, and workshops from industry experts all designed to raise physician competence.

DISCLOSURE: We at SAGICO are confident in our products and so should our professional surgeons. A surgeon must always rely on his or her own clinical judgment when deciding whether to use a particular medical appliance that may be applicable for a specific patient and adhere to the package insert, product label and/or instructions for use before using any SAGICO product. SAGICO does not diagnose nor does SAGICO offer medical advice on medical conditions and SAGICO requires that all surgeons be trained in the use of any particular product before using it in surgery. The information presented is intended to demonstrate the depth and future of all of SAGICO's product lines. Some products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets. Please contact SAGICO prior to any medical procedures to learn more.
